

**Fixed Angle Tilt Mirror**

Style	Measurement	Finish
1 = Fixed Tilt	1 = 16" x 24"	1 = SS # 304 Satin
	2 = 18" x 24"	
	3 = 18" x 30"	
	4 = 18" x 36"	
	5 = 24" x 36"	
	6 = 36" x 72"	
	7 = 42" x 36"	
	8 = 48" x 36"	
	9 = 16" x 30"	
	0 = 16" x 24"	

**MATERIALS:** The fixed angle tilt mirror is fabricated of alloy 18-8 stainless steel, type 304, 20 gauge, No. 4 satin finish.

**SPECIFICATIONS:** The unit is one piece construction that is free of miters or spot welded seams. All surfaces are No. 4 satin finish and are fabricated of alloy 18-8 stainless steel, type 304, 20 gauge, No. 4 satin finish. The unit is made of plated glass and is warranted for 15 years against silver spoilage.

**INSTALLATION:** The mirror is surface mounted on wall using (4) # 10 self tapping screws. The mounting holes through back are keyhole slots for hanging unit on pre-installed screws. The hole height from the top of mirror is located 5 1/2" (140 mm) down and from the bottom of mirror is 5 1/2" (140 mm) up on both sides of the frame. The holes are 1/2" (13 mm) wide.

The ADA requires that the bottom of reflecting surface is to be installed 40" maximum above finished floor.
